artopex®  
the art and the purpose

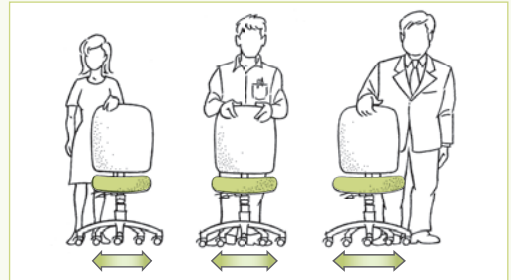

#### Headrest:

- Integrated headrest on executive high back models

#### Back and seat:

- Applied ergonomics : lumbar support and lateral support in all versions
- Three seat sizes available for all models

- Ultra-Flex® technology on steel structure or molded wood
- Polyurethane highly resilient foam slab

#### Ultra-Flex:

The Ultra-Flex® technology consists of a latex coated elastomer membrane mounted on a tubular steel frame. This technique increases flexibility and allows a perfect distribution of the body weight on the whole seat, reducing pressure for a better blood circulation and providing long term comfort.

#### Arms:

- Comprehensive choice based on function, comfort and aesthetics
- Urethane arms for conference and visitor seating
- Height and width adjustable arms for operator chairs

#### Mechanisms:

- Choice of five "ergo type" mechanisms for best posture and individual adjustment
- Swivel/tilt with block and lock system, gas cylinder or knee-tilt system for a more executive look, the conference room, etc.
- Manual (screw column) or gas cylinder height adjustment

#### Bases:

- 5-prong base, polished aluminum or black nylon (standard height or designer stool height)
- Sled base or 4-legged base with or without casters for waiting rooms, side chairs, etc.

dotcom

choose dotcom to get to the wide world  
of high-tech value in office furniture

Dotcom is a "universal" line of office chairs engineered to solve all seating challenges, from the executive office to the mailroom, from the computer workstation to the waiting room, the boardroom to the designer table... but that's not all : Dotcom is your best bet for design, comfort and value !

Build your own "personal" chair ! Select the right back height for your body, the seat width, the best ergonomic mechanism for the job, choose the base type you need, as well as the ideal arm style for comfort - or no armrest at all - and create your own customized seating machine !
