

# Horizon™

LED Task Light

# New LED Technology is on the Horizon

Humanscale's Horizon LED task light, a visually striking fusion of form and function, is the first use of Thin Film LED Technology™ in a task light. Using a series of high-intensity LEDs surrounding several layers of polycarbonate and optical films, Thin Film LED Technology produces an ultra-wide footprint of warm, glare-free 3000K light—excellent for ergonomic illumination and beautiful light in any environment.

In addition, Horizon's built-in dimmer control provides both energy savings and adjustable levels of illumination.

## Features

- Striking, organic aesthetic complements any interior
- First use of innovative Thin Film LED Technology in a task light
- Even plane of illumination casts just one shadow
- Produces ultra-wide footprint of glare-free 3000K (warm white) light
- Spherical joints in the base and light assembly facilitate easy, intuitive positioning
- Seven levels of adjustable illumination increase the light's energy efficiency and ergonomic function
- Nightlight feature operates at just one watt
- Soft start and adjustment is easy on the eyes
- Robust, high-quality design ensures years of maintenance-free use

## Specifications

- Power consumption: 9 watts
- Dims to 10% of maximum
- Lifespan: Up to 50,000 hours
- May contribute to valuable LEED credits
- 5-year, 24/7 warranty

Creating a more comfortable place to work
