

LSV6 DUAL SWIVEL KEYBOARD SYSTEM

LEADER

With two pivot points built into the arm, the LSV6 dual swivel keyboard system offers the extra ability to rotate or swivel the keyboard platform. This additional adjustability can improve user working comfort, particularly when installed in some 90° corner workstations.

LSV6 DUAL SWIVEL KEYBOARD SYSTEM

LEADER

FEATURES

- Two swivel points allow for optimal positioning of the computer keyboard
- Provides additional adjustability when the track is mounted off-center due to an obstruction
- Lever-free arm for smooth height adjustment
