Bariatric Guest Chair

21" Guest with Standard Black Frame

ergoCentric Bariatric Guest chairs are highly durable. Made with high quality materials and superior construction; the chairs provide cushioned comfort for guests requiring a larger seat. Ideal for offices and waiting areas that require comfortable seating, the Bariatric Guest series offers three sizes to accommodate larger body types as well as room configuration requirements. The chair's robust design allows for a weight capacity up to 750 lbs., ensuring the chair can sustain heavier loads over time.

The dual curve backrest and dual curve waterfall seat offer added comfort in addition to a standard kick back leg design to provide enhanced durability and "wall saver" protection. The all steel frame and high quality foam is backed by a 5 year parts and labor warranty. The Bariatric Guest chair is ideal for areas where repetitive use and comfort are a priority.
