iCentric Mesh Boardroom
Open House Onyx Seat
and Black Backrest

Guest Chair with arms in Open
House Asteroid Seat, Black
Backrest and Chrome Frame

ergoCentric

Boardroom Chair
Open House Asteroid Seat
and Silver Backrest

The iCentric Mesh Series has been designed to offer an affordable chair solution that provides airflow capabilities while maintaining ergonomic support and comfort for boardroom, conference and training room use.

The iCentric Mesh series chair backs feature proprietary flexible weave upholstery. Comprised of polyester and monofilament/elastic yarns, the fabric offers a softer feel than traditional mesh while allowing increased airflow. The fabric is designed with a horizontal band detail to provide additional support compared to other mesh backs.

The iCentric Mesh Boardroom is available with a wide variety of options, including 3 mechanisms - Swivel Tilt, Multi Tilt and Boardroom Executive Boardroom. The chair comes standard with a glass filled nylon high profile base, with the sleek aesthetic option available in a polished aluminum base.

The iCentric Mesh Guest chair is made with the same flexible weave upholstery and is available with a variety of options, including with or without arms.
